Kelly,

Thanks for the update. Sorry to hear about the furlough.... But SCDOT has something else they need to do on the 29th, so that date is out. I will be coordinating with the other agencies today to see if the 27th will work. If I can't get that to happen, then I may ask you to make a change of plans. But that will be the last resort.....

As for the mitigation plan, I sent you a letter dated July 29th with a CD enclosed that contained the proposed stream mitigation plan. Let me know if you didn't get it. Steve

Steve,

Just to make things more difficult, I'm actually furloughed on the 29th. If you can't get this on 27th just let me know and I'll cancel the other visit. Also, was there a proposal I should have received to review on the stream mitigation? If I've gotten anything I don't recall it.

Thanks,

Kelly Laycock

Thanks. And wouldn't you know it, most others are indicating that the 28th is their preference..... I will let you know in a day or two what has been decided. As always if one day doesn't work for everyone, we can always schedule additional field views..... Steve

The 27th or 29th are best for me, I've got another site visit on the 28th.

Classification: UNCLASSIFIED
Caveats: NONE

All,

I have heard from several of you who are interested in attending a field view of the Long Branch Stream mitigation site for the I-73 project. So now I am trying to set a date to do so. Right now I am looking at August 27, 28, or 29. I believe that we can complete this field view in one day, and I would propose that we would meet on site around 10 am. I would ask that if you are interested in attending, please let me know which day works for you. Once I hear from all interested, I will let you know the day.

Let me know if you have any questions. Thanks. Steve
